

# Authorization for Electronic Funds Transfer

Electronic Funds Transfer (EFT) lets you authorize your bank or financial institution to automatically deduct your installment premiums from either your checking or savings account.

When you pay by EFT, you save on monthly service installment charges. You also save time writing checks and the postage cost to mail it. In addition, you avoid the risk of late payment charges and risk of cancellation to your policy if payment is not received.

Please Note: EFT will be set up upon receipt. Your first withdrawal will not begin if there is a payment due. Once your payment has been processed, your next scheduled installment will be withdrawn by EFT. Payments returned will be charged a fee and will be removed from the EFT payment option.
